

*Empowered People. Informed Decisions.*

**The PA Coalition for Informed Consent** was formed in early 2015 after **over 100 vaccine-mandating bills were introduced** across the nation. These bills threatened to remove the vital personal freedom and human right of citizens to make informed, voluntary healthcare decision and to maintain the privacy of these choices.

We are a grassroots, all volunteer coalition of doctors, lawyers, mothers, fathers, business people and laymen who share a fiery passion to choose what goes in our bodies and the bodies of our children.

**We at PCIC are neither for nor opposed to vaccinations, but simply want to keep health care choices where they belong - in the hands of the patients and parents - and out of the hands of government.**

On the state and federal level, several laws and regulations restricting medical choices are looming. Our legislators need to know that the attack on personal freedom is multi-pronged. Medical choice is a freedom that must be defended – for all citizens.

**Your legislators NEED to hear from YOU** about your concerns regarding this issue. PLEASE don't think that someone else is doing it. **We must ALL speak up!**

**Learn more and get involved by signing up at [PACIC.org](http://PACIC.org).**
