

Pharmaceutical Marketing has **NO BUSINESS** IN PUBLIC SCHOOLS!

The Public School system of Pennsylvania has welcomed the agendas of the Pharmaceutical industry into the halls of our taxpayer-funded schools, in spite of the disapproval of stakeholders. The school system must return its focus where it belongs, on **education alone.**

WE DEMAND AN IMMEDIATE HALT TO THE MISUSE OF OUR SCHOOL SYSTEM BY OUTSIDE AGENCIES.

With over 9,000 reported COVID-19 vaccine injuries in children¹, authorities are taking steps to stop medical marketing to minors.²
