

# HB2013

## A CONSTITUTIONAL AMENDMENT PROVIDING FOR RIGHT TO MEDICAL FREEDOM

### Urgent need to protect medical freedom

During the past two years, we have experienced an unprecedented abuse of power from the executive branch. In the May 2021 referendum vote, **Pennsylvanians voted for freedom**. Yet, our freedoms continue to be eroded as vaccine mandates and passport requirements have begun in cities, counties, and for some businesses for employment.

### No manufacturer liability

Pharmaceutical companies are **not liable** for injuries from COVID-19 vaccines under the PREP Act (Public Readiness and Emergency Preparedness).<sup>1</sup> Mandating liability-free products creates a dynamic where there is NO FINANCIAL INCENTIVE to design and supply safe products.

### Exemptions are not enough

Religious and medical exemptions are **NOT being accepted** by many employers, and individuals are increasingly being forced to disclose, explain, and defend their personal religious beliefs and private medical history. Meanwhile, there is no scientific rationale for mandates, as COVID-19 shots do not stop the vaccinated from getting or spreading the SARS-COV-2 virus.<sup>2</sup>

### *§ 30. Right to medical freedom.*

*The right of an individual to refuse any medical procedure, treatment, injection, vaccine or prophylactic may not be questioned or interfered with in any manner. Equality of rights under the law shall not be denied or abridged to any person in this Commonwealth because of the exercise of the right under this section.*

---

**Protect Pennsylvanians' Medical Freedom. Pass HB2013.**
